BIENVENUE

"WE ARE COOKING WITH ANCIENT SEEDS" !

*Buckwheat flour is ground from *Fagopyrum esculentum* seeds, known more casually as **buckwheat**. It has a rich, bold, and nutty flavor and a very high nutritional value, making it popular in many nations.*

*Why is **buckwheat** healthy?*

*The truth is that **buckwheat** is good for you simply because it's a nutrient powerhouse. Not only does these seeds have manganese, copper, and magnesium (great for metabolism, **healthy** blood cells, and nerve function), but it also has fiber and protein that are important for weight management.*

It is a Pleasure to Have You at Crêperie Chez Solange
